MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Conversation with Gerry E. Pettibone, BOB

1. Advised Pettibone of the requirement to lock-in to the CIA budget figure the additional amount of \$16,630 in support of Commo. He advised that he was meeting with Veatch this afternoon to determine certain lock-in figures and would make note of my call.

2. I advised Pettibone that I wanted to again state that we are in effect underwriting contracts for specific projects which were within our appropriation but which were not included in the apportionment figure given us by the BOB. Pending some resolutions of the issues and that in doing this he was in effect budgeting on a deficiency basis. He agreed that he was aware of this and saw no problems.
